Subject: Brifen WRSF

The Brifen Wire Rope Safety Fence Manufacturer's Approved Drawings are available in pdf and dgn files for use as details in the plans using the WRSF. The details are not to be altered and do not require an engineer's seal. The surface mount detail has been approved for usage across bridges so that anchors at the bridge ends are not required. The website address is: http://www.dot.state.az.us/ROADS/Rdwyeng/updates/viewable_drawings.html Please forward this information to your design consultants using the Brifen WRSF.
